

# eBay Research Event

Thursday, March 22<sup>nd</sup>

10:30-12:00

Technion Taub Building | room 337

**Dear MSc and PhD students,**

Whether you are looking for a **summer internship**, a **part-time** or a **full time job**, eBay's Research team has great opportunities for you. At eBay, you will be able to conduct world-class research in areas such as ML, NLP, and IR; work closely with the engineering teams in order to bring state-of-the-art technology to production, while publishing scientific work in top-tier conferences; and see your work impacts billions of people around the world. Fascinating, isn't it?

## Agenda

- 10:30-10:45** **Intro by Ido Guy**, Director and Head of Research at eBay Israel
- 10:45-11:15** **Dr. Kira Radinsky**, Chief Scientist and Director of Data Science at eBay Israel: "The Future of AI as demonstrated by eBay Research"
- 11:15-12:00** **Ask us anything** alongside yogurt with treats, fruit shakes & more!

**Scan the code  
for registration  
by March 17<sup>th</sup>**
